

Presented by Austability and Emirates Group Security

The Most Dynamic Industry Briefing and Connective-Business Platform in the Region

CYMASS 2017 SECURITY CONFERENCE

Exploring the link between securing places of mass gathering with regard to the influence of today and tomorrow's cyber threats, trends and developments.

In recent years, places of mass gathering have come under increased scrutiny for the ability to secure traffic. A surge in the reliance on technology attempts to ease of flow and safety in these places, but manipulation of the cyber sphere can lead to disaster if left unchecked.

Presented by Emirates Group Security Austability, CYMASS 2017 Security Conference presents two days of industry-focused expertise.

International subject matter experts and industry professionals will deliver a prudent combination of strategy and security designed to protect places of mass gathering, with specific reference to cyber security.

Date: 21 and 22 February 2017
Location: Dubai, United Arab Emirates
Venue: Emirates Aviation College
Cost: USD \$1,800 per person

CYMASS will deliver focused, strategic content and expert guidance for CEO's, directors, professional advisors and specialists from sectors including aviation, transportation, IT, entertainment, emergency response, security, communications, crisis management and critical infrastructure.

Benefits of CYMASS

- Association with, and representation within a high-caliber event: the first of its kind in the world today!
- Exclusive access to, and proactive placement at the forefront of key decision-makers involved in the dynamic development within the region and internationally.
- Focused information gathering and access to some of the world's leading subject matter experts offering information that is otherwise inaccessible to the public sector.
